TRUTH TRIUMPHS

Norway Citizens Testify for the Public

Benefit

A truthful statement of a Norway citizen, given in his own words, should convince the most skeptical about the merits of Doan's Kidney Pills. If you suffer from backache, nervousness, sleeplessness, urinary disorders or any form of kidney ills, use a tested kidney medicine.

A Norway citizen tells of Doan's Kid-

ney Pills.

Could you demand more convincing

proof of merit?

John F. Sampson, prop., painting estab.

174 Main street, Norway, says: "I was

feeling run down and miserable for quite

a long time. I was tired and nervous

and my kidneys didn't act regularly. At

times the secretions passed too frequent-

ly and then again they were scanty. My

head ached night and day. A friend ad-

vised me to try Doan's Kidney Pills, so

I got three boxes at Stone's Drug Store.

When I had finished taking them, the

trouble left me and I have not been bor-

dered since. I can certainly recommend

Doan's Kidney Pills to anyone afflicted

likewise."

Price 60c, at all dealers. Don't simply

WHO SHALL BE SERVED?

One of the observing men of central Maine said the other day: "Tell me why we cannot have a public utilities commission which will serve the people of the State and not the corporations? I have been trying to arrange to ship a few sheep to Lewiston, 15 miles, and find that it will cost more than they are worth to get them over the railroad because there has been granted such a big increase in rates." The truth of this statement is being forced home daily and there is the certainty that unless there is relief the small farmer is sure to be pushed to the wall. Maine has lost 11,000 farms during the past 10 years, and this has largely come as an inevitable result of the increased favors granted corporations and public carriers. Because of the first, prices can be offered and promises made of attractions the country cannot insure, and because of the latter the cost of getting products to market cut up all there is in it and more. The corporations ask and get what they ask for under the claim that they must have to live and pay dividends on stock issued. Admitting the soundness of this position

Children will get up with the chickens - before the house is warm.

YOUNGSTERS in the early morning hours are a good deal like newly-hatched robins—"breakfast" is their only thought.

And they needn't stay in bed until your steam heater or furnace has warmed up the whole house. The cheery glow of a Perfection Oil Heater will make all comfortable—in the bedroom and alongside the high-chair.

*How to economize on coal
this winter*

Don't try to heat "all outdoors"—or all indoors, for that matter. In heating all your rooms up to 70° or 72°, several of them are usually made stuffy.

Use a low, even fire in your regular heater to keep every part of the house warm. Then make the rooms you use most thoroughly cozy and comfortable with a Perfection Oil Heater.

The Perfection is light, clean, and effective—a portable radiator. Take it anywhere, light it as you do the gas. No bother or litter. Holds a gallon of kerosene and burns about ten hours without refilling.

Perfection Oil Heaters are sold by progressive hardware, housefurnishing and department stores. Blue or black finish, with or without nicked trimmings. Ask your dealer to explain its easy operation and many advantages.

For best results use Socony Kerosene.

NORWAY AND VICINITY

Norway An Ambiguous Locality
Are you acquainted with the Norwegians mentioned in the following story, reported in the Brockton Enterprise and copied by the Boston Sunday Globe?

"City Clerk Benington of New Bedford tells how a man and his wife appeared at the registration office, the other day. While the man was looking up whether his name was on the list or not, the wife attempted to register.

"Where were you born?" she was asked.

"In Norway," was the answer.

"Where was your husband born?" was the next question.

"In Norway," said the woman.

"Where is your naturalization papers?" was the next question.

"My husband has it," said the woman.

"At that time the man was just disappearing through the office door into the corridor to look at the voting list of his precinct, and it was suggested to the woman that she ask her husband to produce the paper. She returned with him in a moment.

"What's all this about?" he asked the registrar. "My wife says you want my papers. What papers I haven't any papers."

"Where were you born?" asked the registrar.

"In Norway, of course," replied the man, "just as my wife told you."

"Then where are your naturalization papers?" he was asked.

"What do I want of naturalization papers?" he replied, asking the question, Yankee fashion.

"If you were born in Norway, your wife must certainly have naturalization papers to register to vote in Massachusetts," he was told.

"Well," said the man, "I was born in Norway, all right, but it was Norway, State of Maine."

"And of course the papers were not required."

Interesting Military Documents

While overhauling family heirlooms, recently, Winfield C. Bessey found two documents carrying the official seal of Maine, bearing dates nearly a century old. They were the property of his grandfather, Capt. Alden Bessey.

Both are commissions in the State Militia granted to Alden Bessey of Paris. The first dated, Aug. 11, 1830, and signed by Jonathan G. Hutton, Governor and Commander in Chief, elected Mr. Bessey to a lieutenantancy in the 5th Co., 1st Reg., 1st Brigade, 6th Division of the Maine Militia. That rank dated from June 5th, 1830.

The second document dated, Sept. 24, 1832, bearing the signature of Samuel E. Smith, Governor and Commander in Chief, promoted the lieutenant to Captain of the same company. This promotion dated from July 28 of the same year.

Capt. Alden Bessey was born in Paris, April 16, 1807, the son of Joseph and Lydia Bessey. His ancestors were among the early settlers in Paris. He married Laodicea Benson of Hebron and settled at the Bessey homestead. The latter part of his life was spent in Buckfield. He reared a family of seven children. One son, Alden M. Bessey, settled on the home farm, married Josephine Waldron of Buckfield, and carried on farming, many years.

A son, Winfield C., is the fortunate possessor of the time worn documents cherished in the family for their historical value.

Capt. Bessey's military career started when he enlisted in the South Company, so-called, organized, July 12, 1802, and disbanded in the late forties.

OXFORD
Class Formed

A survey of the community is to be made in connection with the work of a mission study class which has been formed here. Interesting facts about the town will be secured and will form material for ready reference in connection with the work of the class. Plans were formulated at a meeting held at the home of Mrs. Herbert Flood. The church and the community are the subject of the course the class is taking and a large number have been enrolled as members.

REAL DEMOCRACY
The common people long to see a real democracy. Where for all there is freedom, what a glorious word.

It is a message from God that many have heard. Its echoes are ringing far and near. And they who listen, the music hear. The nations are now having new birth. And right now, shall rule the earth. There are hosts now waiting to answer the call.

"All for each and each for all."

They were followed by more couples than could march with comfort. Waltzes, fox trots, one-steps and contras made up a pleasing order. Amid much laughter, Dorothy Green was awarded the big box of chocolates.

They have decided to give a "Poverty Ball" November 27 with prizes for most poverty stricken attire (downish and grotesque rigs not counted), penny fines for white collars and jewelry. It has been rumored that on account of these prizes the "chocolate dance" would be omitted. However, chocolates will be awarded on Boston Fancy as usual.

SHE HAS A DOUBLE CONFIDENCE IN IT

Mrs. Ella Stimson Twice Restored By Tanlac After Serious Illness

"I have double confidence in recommending Tanlac, because on two separate occasions it has proved itself of great benefit in my own case," said Mrs. Ella Stimson of 253-A Danforth Street, Portland, Me.

"For a year and a half I was in a very weak and run-down condition," she said. "My appetite was poor and I simply had no strength or energy, either to do my housework or look after the children. I used to wake up every morning with a dread of the day's work ahead of me. I yearned for a good long rest, but that was impossible and I simply had to keep going. My nerves got so bad at last that I was fidgety and irritable and could not stand the noise of the children playing around the house."

"My mother knew of my condition and wrote and told me to try Tanlac, as it had given her great relief. I acted on her advice and the medicine proved most effective in my case also. It did what no other medicine had ever done for me; it made me eat. It seemed to tone up my whole system, so that my blood seemed purer, my nerves got steady and I was soon so strong and energetic that the work of my house became a pleasure instead of a burden."

"Then, unfortunately, I had the grippe, in fact the whole family had it except my little girl, and after that I was in a terribly weak condition. Remembering what Tanlac had done for me before, I took it again and the effect was wonderful. I regained my strength rapidly and I am now a well woman. I have not only gained in weight, but I feel better than I have in many years."

Tanlac is sold in Norway by A. L. Clark Drug Co.; in West Paris by S. T. White; O. H. Haskell, Sweden, E. F. D. Harrison; Messrs. Hutchins & Webb, No. Fryeburg; Kidder Bros., Peru, and Mrs. Edith Hunt, Denmark.

Father of Three Children

Writes From Panama

Canal Zone

Balboa, Canal Zone. A father of three children writes: "Will you kindly send me by mail two bottles of your Dr. True's Elixir. I cannot get it here in Panama, and don't care to be without it in the house, because I have three children, and the Elixir is the best family remedy I ever used. When one of the children has a fever, I give him a dose of Dr. True's Elixir and he comes out hale and hearty in the morning. Our children have showed no signs of worms since they have taken the Elixir. Last summer one of our boys was very sick with a small bottle of your Elixir cured him in five days." F. H. Huntington.

The prescription, Dr. True's Elixir, the Family Laxative and Worm Expeller has done wonders for sick people, men, women and children. No harmful drugs—works quickly and effectively.

TRUE VS. FALSE VALUES

The glitter of brass is not infrequently taken for pure gold for a time, much to the disgust of the true thinkers. It is well, however, to remember that in the long run real values are bound to be recognized. At all events, if pure bluff and self advertising seem to succeed temporarily, the modest man may well console himself with the thought that he is doing his duty and is contributing as he is able to the world's good.

The Littleton Courier recently contained a decidedly apropos and impressive editorial on this subject of true and false values. It is worth reprinting:

"The head of a famous boy's school, in saying his parting words to his graduating class, warned them not to feel that the prominent people, and the significant people are necessarily the same ones. He called attention to the many persons who achieve prominence, who get into the public eye and occupy public positions, who really have no significance in the community. They are in addition to its wisdom, and no contribution to its progress.

"The power of winning attention, of getting into the limelight, comes very easy to many people who have done nothing to deserve this popularity. It is the result of a very self-confident nature, a spirit of bluff or good fellowship, and leads them to make friends easily and to the circles of people where they associate. Meanwhile there are always many persons of a quieter type, who are doing the real thinking about life and social progress. They are modest about their own attainments and achievements. But they are always studying on human problems, and trying to think out better ways of living and more efficient ways of doing business and conducting social organization. They are not content with mere knocking, but make positive suggestions of how systems of human activity can be improved.

"As time goes on the false values of life disappear, and a person's contribution to the social organization is estimated at its true worth. The quiet people who accomplish real things are sought after, to perform the work that the world needs. The world wants action rather than talk. In the long run quiet efficiency beats out noise and bluster."—Rochester Courier.

FUEL SHORTAGE AND HEALTH

The shortage in the coal supply is not without its advantages. The saving of fuel which is essential may actually help in the long run in improving health conditions. That men can keep well even with a reduction in the temperature of living room and office is the conclusion of recent investigators. According to a large number of experiments, the low temperatures running from sixty to eighty-eight degrees, as compared with those high temperatures so often prevailing in buildings, are beneficial to health. A person staying an hour or more in a warm room develops about a degree of fever, leading to colds, infections, fatigue, etc. A physician's statement says: "As to efficiency and a low temperature, several researches have shown that men will do more work and do it more accurately if the temperature of the room or office is reasonably low. Winslow of Yale making this test, found that stenographers did 6.3 percent more work when the temperature was 68 degrees than when it was 75 degrees. Men doing moderate manual labor did 15 percent more work at the lower temperature. It is found that men working at both office and at manual labor at a temperature of 68 degrees, were good humored, energetic, did good work and were given to less drowsiness than usual. On the other hand when the room temperature was over 73 degrees they were drowsy, listless, and with less inclination to work. Fresh air is just as necessary as ever. Fresh air must find its way into every office, living room, public building. To save a little extra coal and invite an illness is poor economy."

Monday, the funeral of Mrs. Mary Howe Linnell was held at the lower church. Burial at Wilson's Mills.

The Hartwell-Coggins party of four of Lowell went out Saturday, having a deer each, but very few deer have been secured except by outsiders, and but few at that.

Thanksgiving day is most here, preparations are being made for big dinners and their families coming together. There is much for us all to be thankful for. Let us try and keep the thankful spirit all the year, there will always be some vacant chairs.

My small cousin during the war picked up many phrases which were in common use. One day while I was combing her hair she dropped her hair ribbon, which she had been holding. After a few moments, she sighed profoundly and said, "Would you mind giving me a furlough while I go after that ribbon?"—Exchange.

OWN YOUR HOME CAMPAIGN

Much has been written of late regarding the best interests of the country, and one of the great features is a campaign urging people to build and own their own homes—the home being the foundation upon which the republic is built. In owning one's own home greater interest is taken in the welfare of the town, the family have a fixed place which is home through life, and a spot which to them is different than the rented apartment.

More and more people are owning their homes and a good illustration of this fact is contained in the following clipping as regards a town in Maine:

"The people of this town have a rent problem to solve the same as in many other sections of the country. They are being kept busy moving from one section of the village to the other. People are buying houses in order to be certain of a rent, and the people who have been living in the houses are obliged to seek quarters elsewhere."

RHEUMATISM—RELIEF

From Its Dreadful Pains and Aches, Stiffness, Soreness—

Is properly to be sought in a good blood medicine, because authorities say rheumatism is a blood disease; acid has entered the blood, settling in the muscles and joints. That's what makes the sharp, sudden, shot-like pains, causing you to jump and cringe in agony.

Hood's Sarsaparilla comprises remedies that every physician prescribes for rheumatism, combined with other blood-purifying, tonic and strength-building ingredients. In a formula vastly superior in make-up and in curative power. It does give positive relief. Thousands say so. So will you. For a fine laxative take Hood's Pills.

DO CHRISTMAS SHOPPING EARLY

Very true it may be to say it, but duty requires that the public be advised to do its Christmas shopping early. It now is early. Merchants are expectant, and they are prepared. Your merchant deals in goods that the public desires and should have.

An early Christmas shopping campaign is in keeping with agreeable traditions. Its necessity should not have to be urged, but to urge such necessity is as much to be expected along about this time of year as slippers and suspenders are expected by father on the glad Christmas morn.

Shopping takes time, and Christmas has the habit of slipping up on older folk, though it drags with leaden feet toward the wishes of childhood.

Buy early, at your leisure. It is the sensible thing to do; it aids the merchants and the large corps of clerks.

OTISFIELD

Prentiss Fogg shot a deer, Friday, that weighed 150 lbs.

Ed. Davis shot a deer, Monday morning.

Earl Warren visited the State Grange in Boston, last week.

Gene Edwards slaughtered a hog, recently that weighed 400 lbs.

Gene Edwards saved wood for Jesse Scribner of Harrison, last week, with his gasoline engine.

Clara Foster remains about the same. Elmer Lattulip finished work for Al. Ward at the mill at Otisfield, Saturday.

Gene Edwards and wife called on their daughter, Mrs. Gladys Hoyt, and family, at Otisfield, Sunday.

NORTH LOVELL

Lewis E. McAllister attended the National Grange at Boston, Mass., last week, and reports a fine time; and one to be remembered. He also visited relatives in Waltham and vicinity and visited several places of Revolutionary fame.

Mr. and Mrs. Anne McKee and a daughter Lillian have visited Mrs. McKee's sister, Mrs. Rogerson, at Berlin, N. H.

Fred Warren will move his family into their new camp, Monday. He has a lumbering job at West Stoneham and it is more convenient to have his family with him, as he is to board the men who work for him.

F. L. Harriman and A. Richardson of Lewiston have been here hunting, the past week.

Mrs. Freeman McKee, who has been in the hospital for an operation, has returned and is gaining slowly.

H. R. Andrews and wife have been staying with his brother, Reed Andrews, and family at Lovell, for a few days' visit.

Albert Brown is boarding at Mary Hills' and doing jobs of watch and clock repairing.

S. W. Johnson and wife and Roy, Willis Warren and daughter Clara, were visitors at Fred Warren's, Sunday.

Robert Russell has been driving the stage for Amos McKee, several days, the past week.

S. C. McAllister's rheumatism is very bad; it does not get better as fast as he would like to have it, as he is very active for a man of his age, and it is hard to remain indoors so long a time.

"Sales"

And Supposed Philanthropy it is well to look around and compare.

There is much more to clothing than the price you pay. The prices tell very little about its worth. That depends largely upon what has been put into or left out of it.

The public are demanding lower priced clothes, but at the same time nobody wants cheap, inferior quality. We again repeat the motto: "He profits most who serves best," and believing in every word of this we shall never deviate from our policy of selling the most reliable clothing.

The public demand for lower prices can never stampede us into offering merchandise of questionable quality. Our business has been built upon service and service cannot exist where cheaper, inferior goods is the basis of lower prices, or where goods are marked up for the purpose of marking down.
